Chuchepati, Kathmandu

SKILLS

- **HTML5/CSS3**: Proficient in writing semantic HTML and CSS, with a focus on responsive design.
- **JavaScript (ES6+):** Familiarity with JavaScript syntax, including variables, data types, control structures, and functions.
- **DOM Manipulation**: Knowledge of Document Object Model (DOM) manipulation to interact with web page elements dynamically.
- **Event Handling:** Understanding of event handling in JavaScript to respond to user interactions such as clicks and inputs.

SURYA BAHADUR TAMANG

Frontend web developer

I am highly motivated and passionate web developer eager to embark on an internship opportunity to further develop skill and gain practical experience in the field.

EXPERIENCE

Academic projects

- Developed a responsive portfolio website for my-self, using HTML, CSS and JavaScript.
- Incorporated animations and transitions using CSS3 to enhance user engagement and visual appeal.
- Implemented mobile-first approach to ensure compatibility across various devices and screen sizes.

PROJECTS

FAQs Accordion

This is project is a simple FAQ accordion webpage made using HTML, CSS and JavaScript. It features collapsible sections for questions and answers. When a question button is clicked, its corresponding answer expands or collapses. This feature enables easy navigation through frequently asked questions.

Responsive Drop-down page

This project is a simple web page with a responsive drop-down navigation feature using HTML, CSS and JavaScript. It includes a navigation bar with a dropdown feature. When hovered, reveals a list of links. This implementation ensures easy navigation on various screen sizes, enhancing user experience.
